The rights granted under this Agreement are only effective upon payment of license fees and possession of the appropriate License Agreement (if applicable). The software is licensed, not sold.

(a) Installation. The software contains portions known as "Design-time Components" that provide development facilities in Visual Studio and other development environments. Also, "Production Server Components" are provided to enable services on a computer called a server. This license agreement grants you one (1) license of the software portions known as "Design-time" and "Production Server" components.

(b) Use of Design-time Components. Unless stated otherwise by Licensor in writing, the "Design-time Components" are licensed on a per seat basis. Per-seat licenses are licenses that are counted by all the machines on which any "Designer Component" will reside on. To use a per-seat license, every machine installing, running and/or using the software for development purposes must have a licensed copy and its appropriate license. A development seat license is required for each additional computer on which you will be installing and running any of the "Design-time Components". "Design-time Components" are accompanied by a server portion labeled and licensed as a "Test/Development Server", you may use the "Test/Development Server" software for the sole purpose of designing, developing and testing your product(s). "Test/Development Server Components" have been designed to operate in conjunction with the "Design-Time Components" and must not be used as a separate component for either development or production use.

(c) Use of Production Server Components. The "Production Server Components" are licensed on a per server basis. The "Production Server Components" may only be used on one and the same server. Additional license fees are also due if the "Production Server Components" are used for hosting or service bureau purposes (e.g. an Internet Service Provider (ISP) may not use the "Production Server Components" when hosting pages for its customers using different domain

names). A Production Server license is required for each additional computer on which you will be installing and running any of the "Production Server Components"
